

Founders Message

More than 75 years ago, women received the right to vote. Many of us have celebrated this wonderful occasion and have fondly remembered those brave women who struggled to make it possible for feminine voices to be heard and respected.

Prescott's own Pauline O'Neill, wife of Bucky O'Neill, was one of those pioneers for women's rights.

Now, it behooves all women everywhere to use their right to vote. Think how sad our pioneer sisters would feel to see so many not interested in using their right to vote.

Let's dedicate ourselves to "get out voters" and to see everyone participates in the political process. Those brave suffragettes must not have struggled in vain.
